

Achieving The Perfect Short Tapered Square Nails

01

Clean

- Remove any existing nail polish with an acetone-free remover.
- Ensure nails are clean and residue-free.

02

Trim and Shape

- Trim nails to a length slightly shorter than the fingertip.
- Use a nail file to shape nails into a square shape.
- Round the corners for a balanced and proportionate look.

03

Buff

- Use a buffer block or nail buffer to lightly buff the nail surface.
- Create a smooth and polished finish.

04

Apply Base Coat

- Apply a high-quality base coat to protect nails and create a flawless foundation.

05

Apply Nail Polish

- Begin at the base of the nail and apply the color, keeping the nail's curve in mind.
- Apply two layers of nail polish for an opaque and durable finish.

06

Apply Top Coat

- Finish with a high-quality top coat to seal and protect the manicure.
- Enhance the shine, prevent chipping, and prolong the life of the nails.
